Information on SXR galvanized and stainless steel product range.

SXR product range is manufactured in Germany.

The product does not contain any rapidly renewable materials and the proportion of post-consumer or post-industrial raw materials is unknown.

According to federal EPA standards, SXR is not regulated as hazardous waste in the United States. The energetic recycling of the product in a waste incineration unit is possible.

The VOC content for SXR is 0 grams/liter.

The data refer to the state of the laws at the date of issue.
This confirmation is valid by the day of issue and expires in case of regulatory changes.

The certificate is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.
