

### Krav til anvendte kemikalier i EU-taksonomien

Alle bygningskomponenter og -materialer anvendt i bæredygtige byggerier og renoveringsprojekter skal overholde (EU) 2020/852 *EU-taksonomien* og delegerede forordninger.

Den delegerede forordning (EU) 2021/2139 *Tekniske screeningskriterier* beskriver specifikt krav til anvendte kemiske produkter i *Do No Significant Harm*-kriterierne under afsnit "7.1 Opførelse af nye bygninger" og afsnit "7.2 Renovering af eksisterende bygninger". Nedenstående punkt 1-11 gengiver disse krav.

For at vore kunder kan dokumentere efterlevelse af EU-taksonomiens krav til bæredygtigt byggeri, har Danske Byggecentres medlemsforretninger brug for dokumentation fra alle leverandører af bygningskomponenter og -materialer bliver uploadet i ByggeBasen.

Denne formular skal udfyldes og underskrives af en juridisk ansvarlig person hos producenten.

Underskriften bekræfter, at produktet pr. dags dato lever op til punkterne 1-11 nedenfor. Hvis ét af punkterne ikke kan efterleves, kan erklæringen ikke underskrives. Ukorrekte oplysninger kan have juridiske konsekvenser.

Med underskriften forpligter producenten sig også til at trække leverandørerklæringen tilbage, hvis test viser, at byggevaren ikke kan efterleve kravene i punkterne 1 og 2, eller hvis et stof i byggevaren bliver omfattet af én af listerne nævnt i punkt 3-11.
