Subject: Regulated Substances Declaration

Date: 20211201

Regulated Substances Declaration

This declaration is applicable for the products listed in the annex.

General Compliance

Signify is committed to supply products that are compliant with relevant laws, rules and obligations imposed by relevant governmental bodies including sustainability.

Signify products in general comply with the hazardous substance requirements as given in the Regulated Substance List Policy Requirement. This list can be found at

<https://www.signify.com/global/sustainability/product-compliance/substance-management>

REACH Art. 67 Declaration

It is Signify's global policy to comply with a raft of substance restrictions under the EU REACH Regulation. From the 69 substances restrictions as detailed in Annex XVII of the EU REACH regulation, there are (in addition to the substances already restricted under RoHS directive), only 25 REACH substance restriction relevant for electrical and electronic equipment and hardware products.

Herewith it is confirmed that none of these substances have been found in the products as listed above.

REACH Art. 33 Declaration

With respect to the individual parts or components that complete the product(s) mentioned above, we have requested our suppliers to provide us with information on the related EU REACH Substances of Very High Concern (SVHC). Based on our own current knowledge and the information received from our suppliers, Signify can provide you with the following information SVHCs in our products, as required by article 33 of REACH.

The table below indicates which substance(s) of very high concern (SVHC) may be present in our product(s) and its packaging above the threshold level of 0.1% by weight of an article. Based on our current knowledge and supplier information, the following SVHCs may be present in our articles:

Substance of Very High Concern	CAS Number	Comment
Lead	7439-92-1	Indicated to be present in CDC/Diodes/MOSFET/Resistors/PTC

The products which have SVHC above the threshold level of 0.1% by weight of an article are registered in the European SCIP database.

Based on the information currently available, this does not pose any risk if the articles are

used as intended (including disposal). Additional information is not necessary to allow safe use of the article.

As this list of Substances of Very High Concern will be updated regularly, we refer to the website for the most recent information

<https://www.signify.com/global/sustainability/product-compliance/reach>.

If you have any other question regarding the performance and compliance of our products, please do not hesitate to contact your local Signify contact. We will be honored to assist you further.

Yours sincerely,

A handwritten signature in blue ink that reads 'Joost Van Laere'. The signature is stylized with a large initial 'J'.
