5.1	Suitable extinguishing media: Water spray, foam, CO ₂ , extinguishing powder																	
5.2	Extinguishing-media not to be used: None																	
5.3	Special exposure hazard: For flammable and toxic fumes as well as skin contact with molten materials: see item 10.																	
5.4	Special protective clothing for fire-fighter: None																	
6. ACCIDENTAL RELEASE MEASURES	Not applicable																	
7. HANDLING AND STORAGE	Normal requirements

10. STABILITY AND REACTIVITY Conditions to be avoided: At temperatures higher than 300°C toxic and flammable gases, carbon monoxide may be developed. The generation of cleavage and oxidation products is subject to fire conditions. Non-burned residues and contaminated water after fire fighting should be disposed of in compliance with official regulations. Molten materials should not be allowed to be in contact with the skin to which it can adhere and can cause burns.																
11. TOXICOLOGICAL INFORMATION No toxically reaction known under normal conditions. Under decomposition conditions; toxic fumes and contaminated water: see item 10.																
12. ECOLOGICAL INFORMATION For transportation, storage, normal use, no toxicological effect known. The product is not biodegradable.																
13. DISPOSAL CONSIDERATIONS Being non hazardous solid waste, nonwovens can be disposed of, depending on local legislation, through: recycling, incineration or landfill.																
14. TRANSPORT INFORMATION No specific request																
15. REGULATIONS None																
16. FURTHER INFORMATION All information in this safety data sheet is based on our present knowledge and is given to describe our products with regard to safety aspects. This information does not guarantee certain properties of the products. Recipients of the products must take responsibility for observing existing laws and regulations. The nonwoven produced by Fibertex is defined as an article in accordance to the REACH regulations, and as such does not need an MSDS, however for convenience we have chosen to make this MSDS in accordance with the regulations for preparations as outlined by Annex II of the REACH regulations.
